NO. OF ENCLS.
(LISTED BELOW)

NOT CIRCULATE

SUPPLEMENT TO
REPORT NO.

25X1X

1. The Balchik airfield, approximately 3,000 meters long and 200 meters wide, which is currently being constructed by approximately 6,000 Trudovaks, will be completed near the end of 1951. The field has three hangars which hold three airplanes each. The hangars are 20 meters wide and 40 meters long.
2. Thirty to forty old-type biplanes and single and triple-engine monoplanes are currently based at this field. Informant heard that because of the small size of the field the planes would be transferred and based at the Dobrich airfield.
3. Approximately 100 air force personnel are stationed at the field.
